

## CLUB CHAMPIONSHIP TOURNAMENT RULES

1. The tournament will be comprised of stroke play with sufficient elimination rounds to award the Club Champion and the top three places in each flight.
2. Every club member who has played at least four (4) Home rounds is eligible.
3. The tournament will be played on the regular Week 2 and Week 4 Home Rounds at La Mirada Golf Course with the start date in August of each year, and require four rounds.
  - a. All games must be played on the scheduled tournament dates. No alternate date rounds will be allowed.
  - b. This tournament will be completed in August and September.
4. Each player will be assigned to a Flight determined by their handicap on the first round of play. They will remain in that flight even if their flight changes during the tournament due to changes in their index.
5. The number of flights will be determined by how many players register for the tournament. The goal is to have a minimum of 8 players per flight.
6. Player is responsible for posting their tournament score correctly. If the player does not post, posts an incorrect Adjust Gross Score, or does not post as a Tournament, that score will be DQed.
7. Each player will have their best two of the first three gross scores totaled to compete for the Club Champion. The Club Champion will be determined by the total of the best two of the first three rounds added to the final round. The lowest gross total will be the Club Champion. The Club Champion will represent the Triple S Senior Golf Club in the SCGA Club Champion Tournament.
8. If there are any ties for low Gross or low Net in any flight, the tournament chairman will assign a playoff hole for the players as sudden death to determine the final placement for the Club Champion and the three winners in each flight.
9. Each player will have their best two of the first three Net scores totaled to compete for the Flight Champions. The Club Champion will not be included in the Low Net Flight contests. The Flight winners are computed by taking the best 2 of the first 3 rounds and adding that to the final round. A cut will be made after the first three rounds. Only the top 6 scores will then move on to the final round. The lowest Net score will determine flight placements.
